RE: ML 51194-MP Notice of Intent

Dear Mr. Fautin:

I am in receipt of a Notice of Intent filed with the Utah Trust Lands Administration by Piute County pursuant to stone quarry operations proposed under ML 51194-MP. The notification is complete and you may commence operations. Please ensure that you keep accurate records of all production under the permit and timely submit production reports to the Trust Lands Administration as is required under the permit. I am enclosing a copy of our standard production reporting form for minerals permits.

Your designation of the Utah Division of Wildlife Resources (DWR) as an operator under ML 51194-MP is duly noted. Piute County as the Permittee of record is held accountable for payment of all royalties under the permit, whether accruing to production by Piute County or by DWR. We will accept payment from either party.

The DOGM Small Mine permit (S031009) previously acquired by DWR remains in effect to enable mining and reclamation operations under ML 51194-MP, although Piute County is ultimately responsible for reclamation.

Please contact me if you have any questions.

Sincerely,

John T. Blake
Minerals Specialist

CC: Lynn Kunzler
